

dimensional stability

Accoya® wood's superior dimensional stability (resistance to swelling and shrinkage) exceeds all commonly used species, including Teak, Sapele and Iroko.

TRADA trial results

Accoya® wood was the only wood that did not cup in this TRADA** trial on wooden cladding.

tangential shrinkage* (%)

extreme conditions

Accoya® wood has been tested over prolonged periods in all types of weathering conditions - above ground, below ground and even in water - and has been proven to withstand even the toughest of external environments.

reduced swelling

the Accoya® advantage

- ▶ reduced swelling and risk of jamming in humid conditions
- ▶ better fitting windows and doors in all weathers
- ▶ less frequent coatings maintenance

* Accoya® wood is made using a modification process called acetylation BS_DS_EU_01 © Titan Wood Limited June 2010. Accoya and the Trimarque Device are registered trademarks owned by Titan Wood and may not be used or reproduced without written permission.
